

Commonwealth Biomonitoring

Water Quality Scientists

What We Do

- Aquatic Toxicity Testing
- Lake and Watershed Management
- Diagnostics using Aquatic Life
- Pathogens
- Ecological Restoration

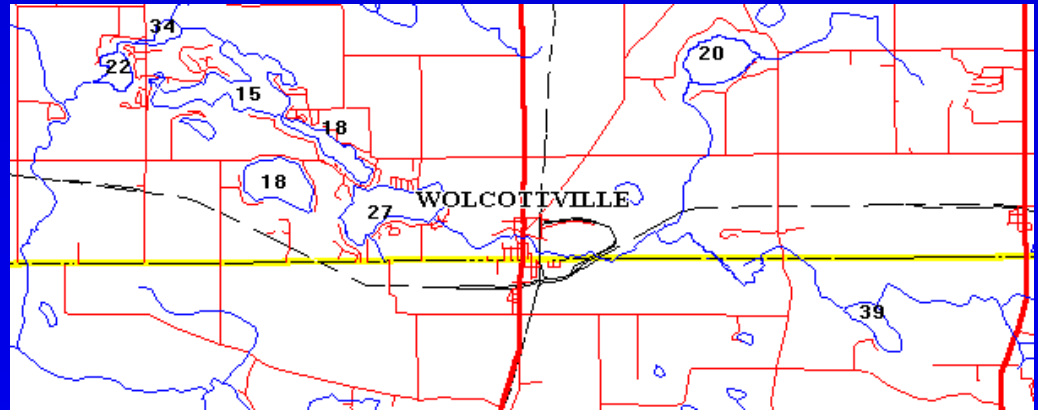

Toxicity Testing

- Effluents (NPDES)
- Stormwater
- Chemicals
- Toxicity Reduction

Lake and Watershed Management

- Trophic Analysis
- Sediment and Nutrient Inputs
- Fisheries
- Habitat

Diagnostics using Aquatic Life

- Laboratory testing
- Municipal combined sewer overflows
- Lake associations
- Soil & Water Conservation Districts

Pathogens

- E.coli
- Viruses
- Biosolids
- Pathogen Sources
- Human vs. Animal Pathogens

Ecological Restoration

- Stream Banks
- Lakeshores
- Storm Filters
- Wetlands
- Dredging

Biomonitoring Personnel

Greg Bright - Director

Melody Myers-Kinzie - Scientist

Anne Fullenkamp - Scientist

Julie Bright - Sampling

Don Larson - Quality Assurance

Lori Stevenson - Lab Animal Care
